Executive Summary

Installation of Hand Pumps - Water Quench Project

Gifted By: *Mr. Salim Adaya (SAYA Foundation)*

Project Cost: USD 10,000

Duration: 4-6 Months

Location: Province of Sindh

Project implementing Partners: Mr. Pervaiz Lodhie, CEO of “Lodhie Foundation” is facilitating and directing selection of installation sites as well as beneficiaries. A team from “Shaan Technologies Private Limited” is implementing this project with the help of reputable NGOs which have presence in selected areas where availability of potable water is a big problem.

Project Overview

Initially 35 hand pumps were decided to procure and install within allocated funds, but through cost cutting and utilization of local resources the number of hand pumps is increased up to 50. Hence 05 Union Councils of three districts, Umerkot, Sanghar and Thatta, in province Sindh are selected for installations of Hand pumps.

Association of Local NGOs:

1. Association for Water, Applied Education & Renewable Energy (AWARE)

Installation of hand pumps through AWARE is started at following locations in Union Councils of Khejrari, Taulka and District Umerkot.

S.#	Name Of Village	UC	HH	Population	Beneficiaries	Depth Feet	Recommended
1	Verisal	Khejrari	250	1500	2000	60	3
